THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

Bazooka factory at Kasopovic

1. A factory producing a hand-held rocket launcher of the Yugoslav bazooka model is located at Kasopovic. The factory was constructed under the direction of the 7 Military District of Sarajevo by military construction enterprises in Sarajevo, Travnik, and Banjaluka. The factory comprises a large building of steel and reinforced concrete which is 400 meters long, 100 meters wide, and 15 meters high. Buildings to lodge the workers as well as factory officials were recently constructed and the work carried out by workers' battalions.

Litostroj Factory, Ljubljana

2. The Litostroj factory in Ljubljana is not operating at full production because of a lack of the necessary raw materials and supplies. Negotiations are being conducted for the supply of machinery required for the production of steel plates, gun-barrels and similar products which are needed in the construction of armored cars. The factory currently employs 2,500 workers. Unfortunately, buildings which are located in the vicinity of the factory, and which were constructed to house the workers are occupied for the major part by Army officers and UDB officials.

50X1-HUM

Petroleum Production in Donja Lendava

3. The director of the Donja Lendava petroleum plant is engineer Ivo Klemencic a Slovene. The technical director is Anton Lovse from Dolenjske. The plant employs 3,000 workers. Twenty five installations for compressors are currently being set up for the purpose of producing methane.

4. The construction of a ventilated methane-conducting pipe from Donja Lendava to Zagreb, plans for which have been completed, has been set aside as of doubtful utility at the present time.

[redacted] the petroleum output of Donja Lendava is on the decrease. Transportation facilities of the plant include [redacted] two three-ton trucks which were constructed in the TAM factory in Maribor.
